

Catastrophe Insurance for Homeowners & Business Owners

Earthquakes are real concerns for California homeowners. A recent USGS study puts the odds of having a magnitude 6.7 (the same magnitude as the 1994 Northridge Earthquake) or greater quake in California at more than 99% during the next 30 years.

Most homeowners' insurance policies do not cover damage and loss caused by Earthquake coverage is too costly, choosing to personally absorb the risk of major damage to their home and property. But that doesn't have to be the case. You may be surprised at how affordable a policy can be.

FEATURES

- Coverages in 38 states and District of Columbia
- Affordable, flexible and complete residential earthquake insurance

COVERAGES

- Dwelling - \$70k to \$5M

Flexible and Lower Deductible Options

- Many companies offer only a 15% deductible, and even the California Earthquake Authority will go no lower than 10%. Your clients can select deductibles as low as 5% and up to 25%. Lower deductibles ease the pain of rebuilding after a major loss.

Complete Coverage

- Instead of single-limit and low-limit coverage offered by some providers, our Earthquake Homeowners insurance offers separate limits and deductibles for each line of coverage. Full coverage for contents, enhanced coverage for swimming pools and the cost of being displaced from your home are also available. In addition, Standard Coverage is available in most areas.

Multiple Payment Option

- Include full-pay, 3-pay and 10-pay plans with recurring credit card.

Contact

Please contact our team for a 24-hour response on submissions or general questions about opportunities.
